CN2 CCV fails high for exo-THC (unregulated cannabinoid) throughout run. Final CN2 CCV fails high for all analytes (all unregulated cannabinoids) due to evaporation. New injection of CN2 CCV stock solution passed for all analytes aside from exo-THC. Therefore, failure of final CN2 CCV, with the exception of exo-THC, can be contributed to evaporation. No exo-THC was observed in any sample or QC injections. CRM fail high for THC, >120% expected.

### Maine Medical Use of Marijuana Program Trip Ticket

The following information is required as proof of authorized conduct anytime a registered caregiver, registered dispensary, marijuana testing facility, or manufacturing facility transports marijuana or marijuana products for medical use. This form must accompany the marijuana or marijuana products.

Pursuant to 22 M.R.S. §2430-G, a registered caregiver, a registered dispensary, a marijuana testing facility, and a manufacturing facility shall keep a record of transfers of marijuana and marijuana products. All books and records maintained by the registered caregiver, registered dispensary, marijuana testing facility, or manufacturing facility must be kept for a period of seven years.

A registered caregiver, registered dispensary, marijuana testing facility, or manufacturing facility transporting marijuana or marijuana products must carry three copies of this Trip Ticket during the transportation of marijuana or marijuana product to another registrant or separate registered location. One copy must be provided to the receiving registrant. One copy must be kept by the transferring registrant for record keeping purposes. A final copy must be provided to law enforcement, if requested. For patient delivery, two copies are required. One copy must be kept by the transferring registrant for record keeping and a second copy must be provided to law enforcement, if requested.

<b>SECTION 1: Transferring Registrant</b>	
This section must be completed by the transferring registrant.
